Discover the vast potential of China's insurance industry—the world's second-largest insurance market. Fueled by decades of dynamic economic growth, China's insurance sector has showcased expertise, product innovation, and expansive distribution advancements, garnering global acclaim.

Asia Insurance Review (AIR), recognized as the voice of the insurance industry in Asia, is thrilled to return to host the 15th China Rendezvous, marking its return after a 3-year hiatus due to the pandemic. The event will be held in Beijing where the pulse of the China market operates and we look forward to welcoming you to be present to position your company at the forefront of the Chinese insurance industry! This is indeed a great timely opportunity especially as the world waited for China's reopening.

Recognizing the pivotal role of domestic companies in the Chinese market, we're extending two complimentary invitations to each Chinese insurance firm, allowing

them to send their senior management and reinsurance colleagues to participate. As such, you are assured the attendance of the market as a whole so as to have bilateral meetings.

Simultaneous Translation will be provided in Mandarin/English during the programme.

Aiming to invigorate both global and Chinese markets and highlight our event's innovative spirit in these challenging times, this year's theme is: "Embracing the New Era of Excellence – The Future Map for Insurance". The spotlight will be on the role of insurance and reinsurance in the Belt & Road initiative, risk reduction strategies, the keys to underwriting profitability, establishing new health and wellness service ecosystems, NEVs insurance and ecology, the Greater Bay Area's novel insurance model, and the technology-driven wave in insurance, among other topics. **Sign Up Now!**
