

20TH ASIA CONFERENCE ON HEALTHCARE AND HEALTH INSURANCE

19-20 MAY 2025, PARKROYAL COLLECTION MARINA BAY, SINGAPORE

**THEME: THE HEALTHCARE AI REVOLUTION - THE NEW
DIAGNOSTICS FOR SMARTER INSURANCE**

20 YEARS OF INDUSTRY LEADERSHIP:
A LEGACY OF INSIGHTS & INNOVATION IN
ASIA'S HEALTHCARE AND HEALTH INSURANCE

Organised by:

**ASIA
INSURANCE REVIEW**
Member: Beacon International Group, Ltd. 

 **3000+**
Industry Leaders & Professionals Engaged

 **600+**
Expert Speakers Sharing Key Insights

 **80+**
Dynamic Panel Discussions

 **87%**
Attendee Satisfaction Rate

 **300 +**
Exhibitors and Industry Partners

 **80% Networking Satisfaction**
Valuable connections made

Thought Leadership Partner:

CONFERENCE INTRODUCTION

The **20th Asia Conference on Healthcare and Health Insurance**, spans two decades of addressing a fundamental issue which has remained on the forefront of the insurance industry. The landscape especially after the recent pandemic has highlighted a new normal of how to prevent, diagnose, treat and heal, more efficiently and smarter - all brought about by AI and new innovation. Therefore, this year as the conference hits its second decade, we felt the theme of **“The Healthcare AI Revolution: The New Diagnostics for Smarter Insurance”** is timely in addressing how the insurance industry can keep a pace with healthcare and health insurance innovation.

As Asia’s healthcare landscape evolves, artificial intelligence (AI) is driving a paradigm shift—redefining diagnostics, optimizing patient care, and transforming insurance risk models. From AI-powered predictive analytics to real-time health monitoring, the integration of technology is ushering in a new era of personalized, data-driven, and proactive healthcare solutions.

For health insurers, AI is not just about automation—it is about precision underwriting, fraud detection, and delivering customer-centric insurance solutions that enhance accessibility and affordability. As digital transformation accelerates, insurers must harness AI’s potential to remain competitive in a rapidly evolving ecosystem to redefine healthcare and health insurance, transforming the industry into a more predictive, personalized, and efficient ecosystem. In 2025 and beyond, AI-driven diagnostics will enhance early disease detection, reducing treatment costs and improving patient outcomes. Predictive analytics will empower insurers to refine underwriting models, assess risks more accurately, and offer dynamic, real-time policy pricing based on lifestyle and health data from wearables.

Chatbots, telemedicine, and automated claims processing will streamline customer interactions, ensuring faster, more seamless healthcare and insurance experiences. Additionally, AI-driven fraud detection will minimize losses and enhance operational efficiency. However, the integration of AI will also demand robust ethical frameworks, regulatory oversight, and data privacy protections to ensure fairness and transparency. As AI continues to evolve, it will not replace human expertise but rather augment healthcare professionals and insurers, enabling smarter decision-making and creating a future where healthcare is more accessible, affordable, and sustainable across Asia and beyond.

The conference will spotlight AI-driven innovations, regulatory considerations, and strategic partnerships to find solutions to augment insurers and the healthcare industry for a smarter, more resilient healthcare and insurance sector in Asia. Join us as we navigate the opportunities, challenges, and groundbreaking advancements that will shape the next decade of healthcare and health insurance in the region.

Welcome to the future of **AI-powered healthcare and insurance!**

DAY 1: HEALTHCARE AI TRACK

KEY TOPICS

- AI-Driven Preventive Healthcare: Shifting from Treatment to Prediction & Prevention
- Telemedicine & AI: Expanding Access to Healthcare in Asia
- AI & Mental Health: Transforming Digital Wellness Solutions
- AI in Chronic Disease Management & Personalized Care
- AI Ethics & Data Privacy in Healthcare & Insurance
- Empowering Healthcare Workers with AI: Enhancing Efficiency, Decision-Making, and Patient Care
- AI & Workforce Upskilling: The Need for Healthcare Professionals to Adapt to AI-Integrated Workflows
- AI & ESG in Healthcare: Driving Sustainable, Ethical, and Equitable Health Solutions
- AI-Driven Preventive Healthcare: Shifting from Treatment to Prediction & Prevention
- AI in Population Health Management: Data-Driven Strategies for Better Public Health

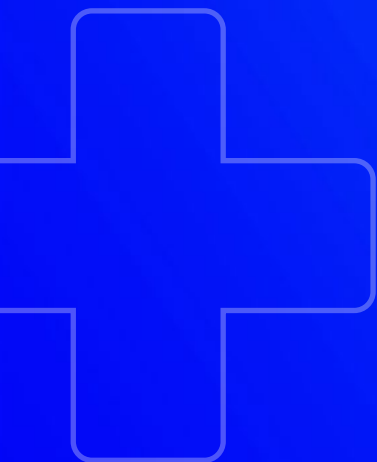

DAY 2: HEALTHCARE AI TRACK

KEY TOPICS

- Fraud Detection & Claims Automation in Health Insurance
- Wearable Technology & IoT: The Next Frontier for Health Insurance
- The Future of AI & Blockchain in Health Insurance
- Regulatory Perspectives: AI Governance in Healthcare & Insurance
- The Role of Finance in AI Adoption for Healthcare & Health Insurance
- AI in Insurance Underwriting
- AI-Powered Actuarial Models: Redefining Risk & Pricing in Health Insurance
- The Rise of AI-Driven InsurTech: Innovations Shaping the Future of Health Insurance
- Real-Time AI Analytics: Improving Claims Processing & Fraud Prevention
- The Convergence of AI, Genomics, and Precision Medicine in Insurance
- How AI is Transforming Customer Experience in Healthcare & Insurance
- Bridging the AI Skills Gap: Training the Next Generation of Healthcare & Insurance Professionals
- From Data to Insights: Leveraging AI for Smarter Underwriting & Policy Customization

WHO SHOULD ATTEND?

- Life & General Insurance & Reinsurance Companies
- Innovation Labs; Medical Institutions
- Biotech, Pharma, Life Sciences, Insurtech, Startup Accelerators
- Managed Care Service Providers
- Management Consultants; Lawyers; Risk Managers; Claims Specialists
- Technology Experts, MNCs, Employers Dealing with HR, Employee Benefits, Work & Safety, Health & Healthcare Issues
- Hospitals
- Healthcare Providers and Third-Party Administrators
- Banks & Alternative Finances
- Governments & Health Authorities
- International Aid Agencies & Emergency Evacuation Companies

RONAK SHAH

President, General Insurance Association of Singapore & CEO, QBE Insurance (Singapore) Pte Ltd

DAMIAN J DELANEY
Regional Director, Health, Group
Distribution, AIA Group

YOONG SIEW LEE
Medical Advisor, Income
Insurance Ltd

YAMIN GRÖNINGER
Managing Director and Partner,
Boston Consulting Group

DAY ONE: 19 MAY 2025, MONDAY

8:00am **Registration, Coffee and Networking**

9:15am **Opening Address by the Conference Chairman**

9:30am

Chua Chin Heng Matthew

Deputy Director, Digital and Smart Health Office
Centre for Healthcare Innovation, National Healthcare Group
Associate Professor, Department of Biomedical Informatics
Yong Loo Lin School of Medicine, NUS

10:00am

Roadmap to Sustainable Fraud Management: Converging Old and New Technologies

Robust fraud data is key to risk-based evaluation of fraud threats and their negative impact on the result of the business. Accurate and reliable fraud data is the life blood for the development of advanced fraud detection technologies and healthy development of the market. Advanced fraud technologies help to automate and boost the detection of potential frauds. Enhanced automation of fraud detection produces shortlists of suspected fraud cases with an attached high probability of fraud. Skillful fraud investigators and the legal environment will ultimately determine whether a suspicious claim becomes a fraud. Digitized insurance offers great opportunities in the expansion of the business, however on the downside, it also raises the level of fraud threats exponentially. To achieve a sustainable outcome in fraud management an automated fraud risk control solution is needed from the onset of implementing any form of digitized insurance.

Rudolf Frei

Managing Director - Asia,
IBNR Management Consulting Pte. Ltd

10:30am **Tea break and Networking Session**

11:00am **Panel Discussion with Q&A: “AI in Healthcare – Meeting Industry Expectations for Innovation, Efficiency & Patient Care”**

Overview: Healthcare providers, insurers, and regulators are looking to AI to revolutionize patient care, streamline operations, and drive better health outcomes. But what are the key expectations from AI in healthcare, and how close are we to meeting them? This panel will explore how AI can fulfill the industry’s demand for **efficiency, accuracy, affordability, and trust**—while addressing the challenges that come with its adoption.

Panellists:

Dr Mayank Gurnani

Deputy Director, Venture Creation & Growth, Innovation & Enterprise, The Agency for Science, Technology and Research (A*STAR)

Maurice Tan

Program Director, NUS Yong Loo Lin School of Medicine

Raymond Cheung

Group Chief Executive, Basel Medical Group

12:30pm **Corporate Buffet Luncheon**

1:30pm **Keynote Session with Q&A**

2:00pm

AI & Workforce Upskilling: The Need for Healthcare Professionals to Adapt to AI-Integrated Workflows

As artificial intelligence transforms healthcare, professionals must adapt to AI-integrated workflows to remain effective and competitive. This session explores the evolving role of AI in diagnostics, patient care, and administrative processes, highlighting the critical need for upskilling and reskilling. Industry experts will discuss strategies for integrating AI training into medical education, fostering a culture of continuous learning, and ensuring ethical and efficient AI adoption. Attendees will gain insights into best practices for workforce adaptation, helping organizations stay ahead in the AI-driven healthcare landscape.

Dr Dario Heymann

Founding Member & Chief Research Officer, Galen Growth | Global HealthTech Intelligence

2:30pm

AI-Driven Preventive Healthcare: Shifting from Treatment to Prediction & Prevention

The integration of AI in healthcare is revolutionizing the industry by shifting the focus from reactive treatment to proactive prevention. With advancements in predictive analytics, machine learning, and real-time data monitoring, AI enables early detection of diseases, personalized risk assessments, and timely interventions. This transformative approach enhances patient outcomes, reduces healthcare costs, and improves efficiency for insurers and providers alike. This session will explore how AI-powered preventive healthcare is reshaping the insurance landscape, optimizing risk management, and fostering a future where prevention takes precedence over cure.

Dr Gary Ang Yee

Consultant, Health Services & Outcomes Research / Health Empowered by AI Launchpad National, National Healthcare Group

3:30pm

AI in Population Health Management

AI is revolutionizing population health management by analysing vast datasets, AI helps identify at-risk populations, optimize care pathways, and enhance preventive healthcare strategies. From automating patient risk assessments to improving resource allocation, AI-driven insights empower healthcare providers and insurers to deliver more efficient, proactive, and cost-effective care. As AI continues to evolve, its integration into population health management is set to drive better health outcomes, reduced disparities, and smarter decision-making across healthcare ecosystems.

Sutowo Wong

Divisional Director, Health Analytics, Ministry of Health Singapore

4:00pm **Celebration Giveaway - Open for Sponsorship Opportunity**

4:30pm **Tea break and end of session**

5:00pm **Premium Cocktail Session – Open for Sponsorship Opportunity**

Note: Programme is subject to change.

DAY TWO: 20 MAY 2025, TUESDAY

8:00am Registration, Coffee and Networking

9:15am Opening Address by the Conference Chairman

9:30am Keynote Session

10:00am Keynote Session

10:30am Tea break and Networking Session

11:00am **Panel Discussion with Q&A: What Health Insurers Expect from AI-Powered Era: Driving Efficiency, Risk Management & Customer Experience**

Overview: AI is transforming the healthcare insurance landscape, from risk assessment and fraud detection to personalized policies and faster claims processing. But what exactly do insurers expect from AI, and how can technology providers deliver solutions that align with business needs? This panel brings together insurance leaders, AI experts, and regulators to explore the future of AI in health insurance across Asia.

Panellist:

Mukul Tuli

Founder of RIA Insurance, India InsurTech Association Member

Laurent Pochat-Cottilloux

Chief Executive Officer, AXA Life & Health Reinsurance Solutions

12:30pm Corporate Buffet Luncheon

1:30pm Keynote Session with Q&A

2:00pm

How AI and Modern Technologies Are Transforming Patient Experience and Streamlining Healthcare Operations

The rapid advancement of AI and modern technologies is reshaping the healthcare landscape, enhancing patient experience, and optimizing operational efficiency. From AI-driven diagnostics and personalized treatment plans to automation in administrative workflows, technology is reducing wait times, improving accuracy, and enabling seamless patient interactions. This keynote will explore how innovations such as machine learning, predictive analytics, and digital health solutions are revolutionizing healthcare delivery, driving cost efficiencies, and ultimately improving patient outcomes.

Mr Roy Wee

Assistant Vice-President, Digital Products & Services,
IHH Healthcare Singapore

2:30pm

Revolutionizing Precision Medicine: AI's Role in Nuclear Medicine & Molecular Imaging

The integration of Artificial Intelligence (AI) in Nuclear Medicine and Molecular Imaging is revolutionizing precision medicine by enabling earlier disease detection, improved diagnostics, and more personalized treatment plans. AI-driven algorithms, powered by deep learning and machine learning, enhance image interpretation, automate workflow processes, and provide predictive insights that improve patient outcomes. This session explores how AI is transforming nuclear medicine and molecular imaging, addressing key advancements, challenges, and future opportunities..

Dr. Winnie Lam

Head, Nuclear Medicine & Molecular Imaging,
Singapore General Hospital / SingHealth
(Singapore Health Services)

3:00pm

Keynote Session with Q&A

3:30pm

Celebration Giveaway- Open for Sponsorship Opportunity

4:00pm

Tea break and end of session

5:00pm

Premium Cocktail Session – Open for Sponsorship Opportunity

The **20th Asia Conference on Healthcare and Health Insurance** remains a key event in shaping the future of health insurance innovation in the APAC region. A trusted platform for collaboration, knowledge exchange, and innovation. It invites participants to join the conversation and explore how we can collectively shape the future of healthcare and health insurance in Asia.

Together, through our collective efforts, we strive to create interconnected and resilient systems that prioritize citizens in health policy and practice, enhancing the well-being of both present and future generations. Thank you for joining us, and we look forward to an insightful and inspiring conference. For Speaking and Sponsorship opportunity please contact **Ms. Erica Belicena – Conference Producer** at erica@asiainsurancereview.com

Disclaimer for Agenda:

The agenda for the **20th Asia Conference on Healthcare and Health Insurance** is subject to change at the discretion of the organizers. While every effort is made to ensure the accuracy and relevance of the topics, speakers, and schedule, unforeseen circumstances may require modifications. The views and opinions expressed by speakers and panelists are their own and do not necessarily reflect those of the event organizers or sponsors. The conference aims to provide a platform for diverse perspectives, and attendees are encouraged to engage in meaningful discussions with an open mind.

Commitment to Diversity & Inclusion

At the **20th Asia Conference on Healthcare and Health Insurance**, we believe that **diversity, equity, and inclusion** are fundamental to driving meaningful progress in the industry. We are committed to fostering an environment where all voices—regardless of gender, race, ethnicity, nationality, disability, or background—are heard, valued, and respected. Our speaker lineup, discussions, and networking opportunities are designed to reflect the rich diversity of the healthcare and insurance sectors across Asia. We encourage collaboration, innovation, and mutual respect as we work toward building a more inclusive and sustainable future for healthcare and insurance.

Note: Programme is subject to change.
